

Street of Dreams, U2- 2026

God hear me shout
Lend your ear to my prayer
When I'm far from anywhere
Down to my last breath of air (2x's)

#1- La calle, calle de los sueños
All the doors are open on the street of dreams
La Calle, calle de los sueños
Broken are the chosen on the street of dreams

Be here- Be free- Be yourself
And then free me
Your fate gonna fight it
Your trust won't be denied it
This bus gonna ride it to the street of dreams

#2- La calle, calle de los sueños
Justice an obsession on the street of dreams
La Calle, calle de los sueños
Love in a procession down the street of dreams

Break out
Break through
Break in

Your dream needs you; Your life gonna find you
Your fear not gonna blind you; Random angels gonna guide you
To the street of dreams

#1

Don't you give up on your dream for the many not just the few
Don't you give up and your dreams won't give up on you

#2

God hear me shout and you'll heed to my prayer

Neighbors, Jimmy Stimson- 2023

Down on the corner of Willowood Street
Charlie and Mere bought the house of their dreams
But two hearts are breaking a couple doors down
The Uhaul's all packed up 'cause Frank's moving out

Someone's falling in love; someone's falling apart
So just hold on wherever you are

Millions of different flavors
Brothers and sisters all over the globe
There's no reason for us to be strangers
I wanna live in a world
A world full of neighbors

Right at 3:30 the mailman arrives
Delivers a postcard that's making Jill cry
'Cause Jack joined the Army and fights overseas
While the rest of us stay home and watch on TV

We're all falling in love; we're all falling apart so just hold on wherever you are

Millions of different flavors- brothers and sisters all over the globe
There's no reason for us to be strangers
I wanna live in a world- a world full of neighbors

The sun is just setting, so let's take a walk
While it's rising in Tokyo right down the block
It's just a big neighborhood on a tiny blue dot
So love your neighbor, we're all that we've got

Millions of different flavors- brothers and sisters all over the globe
There's no reason for us to be strangers
Oh we could all lend a hand; we could all use a favor
I wanna live in a world
I wanna live in a world
A world full of neighbors
